Summary of Experience:

More than 25 years of experience in **health care policy and health care systems** on a national, sub-national, regional, and global level.

More than 25 years of experience in a senior managerial position and extensive working experience with senior government officials on a policymaker level and international development agencies on health care policy issues in various countries of the world.

Considerable experience in designing, implementing, and evaluating diverse programs and projects in different countries and providing evidence-based and custom-tailored advice to the national governments and/or development partners.

In-depth technical knowledge of HIV/AIDS, TB and Malaria programs, and other communicable disease surveillance, control, and response systems.

Served as a vice-chair of the Technical Review Panel (TRP) of The Global Fund (TGF) and was engaged with the Board and the secretariat on various issues.

During March 2015 – December 2020 served as Executive Director for Health Systems Global (HSG) and was involved in Global debates around improving health systems performance to achieve universal health coverage under SDGs.

During 2016 - 2022 was a member of the Technical Evaluation Reference Group (TERG) of TGF and led works on the transition and sustainability of the country programs and supported the evaluation functions performed by the TERG.

Since 2022 a member of Independent Evaluation Panel of the Global fund contributing to the evaluation activities of the fund.

Additional Areas of Expertise:

Operational research, health care financing, health care policy, health program planning and management, monitoring and evaluation

7. Consultancy Assignments:

Client	Position	Place	Year
The Global Fund to Fight AIDS, Tuberculosis, and Malaria	Independent Evaluation Panel (IEP) member Contribute to the evaluation functions carried out by the Fund	Global	September 2022-present
